

Webster 2023 Abstract
<CodeSangam Team ID: Team Name Here>

Team Details:-

Name	Registration Number	Phone No	Email ID	Discord ID
Member 1 Name (Leader)	<enter_here>	<enter_here>	<enter_here>	<enter_here>
Member 2 Name <enter_here>	<enter_here>	<enter_here>	<enter_here>	<enter_here>
Member 3 Name <enter_here>	<enter_here>	<enter_here>	<enter_here>	<enter_here>

<Problem Statement's Name here>

Technology Stack (Proposed):-

- Tech 1
- Tech 2
- Tech 3, and so on.

Features (Proposed):-

- Feature 1
- Feature 2
- Feature 3, and so on.

Progress:-

- Add Screenshots of your app built till now.
- Add Database Schema (optional)

External libraries/APIs:-

- Add the list of APIs, Libraries and tools that you plan to use.

Some Rules and Clarifications -

- Some of you were confused regarding which tech stacks are allowed for frontend, so read these points carefully - You are allowed to use Bootstrap, MaterializeCSS, MdBootstrap, etc CSS frameworks. The only thing is that you must **NOT copy the whole template**, instead, you should build your frontend using Components present in these frameworks.
- React.js, Angular.js, Vue.js are also allowed.
- Use of CMS (like Joomla, WordPress, etc.) is NOT allowed.
- Team members CANNOT be from different years.
- The abstract submission will start soon, till then, be ready with your team and abstract.
- If you cannot find teammates, post your details on the team-finder channel on discord or be a lone wolf.
